

## TKG, TKW - Headscarfs (HF)

YSHIELD® TKG

YSHIELD® TKW

Shielding headscarfs from **2 fabrics in 2 shapes**. First-class workmanship and quality. **Three-cornered as typical headscarf (picture above), quadractic as Bandana (picture below).**

### Characteristics Steel-Gray

**Stable and long-lasting!** Steel-Gray is **not so soft on the skin**. The stainless steel threads feels like a little scratchy woolen sweater, but as headscarf over the hairs this doesn't bother. Because of the electrically conductive surface on both sides, low-frequency fields will connect less and can be conducted away more easily. Many electrosensitive people give priority to fabrics that are groundable!

### Characteristics Wear

Wear is the classical fabric of Swiss-Shield. **Very soft and comfortable against the skin.** Electrically non-conductive.

### Screening attenuation

The screening attenuation is **regularly tested in our own EMC laboratory**. We have measurement setups due to the following standards: **ASTM D4935-10, IEEE Std 299-2006, IEEE Std 1128-1998, ASTM A698/A698M-07**. Please find the test report at our homepage directly on the product page.

### Care

	Gentle cycle at 30°C
	Iron without steam at degree 1
	No drying in tumble dryers
	No bleaching
	No chemical dry-cleaning

Cleaning with our special washing detergent **TEXCARE**. No handwashing! For allergy sufferers: Every new fabric smells, wash before its first usage!

### Technical data

- **Size three-cornered:** 120 x 85 x 85 cm
- **Size quadractic:** 70 x 70 cm

### Steel-Gray:

- **Attenuation: 41 dB**
- **Raw materials:** 40 % cotton, 30 % polyester, 30 % stainless steel
- **Color:** Gray

### Wear:

- **Wear attenuation: 30 dB**
- **Wear raw materials:** 90 % cotton, 9.5 % copper, 0.5 % silver
- **Color:** White
